Departmental Report Healthy Living, Hosted by Margot Marshall

A new season of Healthy Living commences in October 2016. My guest presenter is Dr Eddie Ramirez, international NEWSTART presenter and lifestyle coach, who has lectured on lifestyle disease reversal in 42 countries.

He recorded 13 programs including:

Dementia - A huge problem in Australia and New Zealand. Dr Ramirez is involved in a cutting edge clinical trial to stop and even reverse this disabling disease;

Legumes - The United Nations has declared 2016 as International Year of Pulses (another name for beans or legumes) and wants to position them as a primary source of protein and other essential nutrients, because they’re good for the planet, our wallet and our health;

Inflammation - Believed to play a role in almost every major disease;

Sex Addictions - Their damaging consequences to mental health, plus the 90-day reboot for the addicted;

Charcoal - Able to adsorb (yes, adsorb) thousands of times its own weight in gases, heavy metals, poisons, and chemicals, often making them ineffective;

Hydrotherapy - The theory plus demonstrations of some simple home treatments. Be sure to watch these and more life-changing programs.

3ABN Australia's Needs

These are hard days in which to spread the Gospel. As more and more calls are made on peoples' finances they are having to spread them more thinly. This is affecting many ministries, including 3ABN Australia. As we do not receive any financial support from the SDA church organisation, or 3ABN USA, everything we receive comes direct from viewers and listeners. Please prayerfully consider what God has given you so you can give to financially support this ministry in fulfilling its God-ordained work.

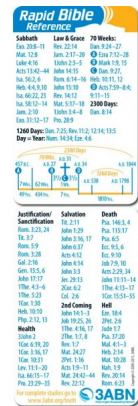

A Word from the Assistant General Manager

This year is speeding by before our eyes. I thank God that it means we are continuing to get closer to Jesus' second coming. In the last 3 months we have continued to make more local programs including our weekly "3ABN NOW" and "Let God Speak" programs, along with a new season of "Healthy Living". Our latest short series, "Faith Versus Finance" with Julian Archer, has just started airing on 3ABN. We have other programs that are still in the pipeline to be recorded in the next couple of months. Please pray for us as we plan and record these programs.

Recently we had some donors from Queensland come to visit us at the studio (we enjoy having visitors!) and they told me an exciting story. Not too long ago they sold their farm. The man who bought the property was an atheist but they offered to leave the Optus D2 satellite equipment on the house if he was interested. To their amazement he asked them if he could watch 3ABN on their system. When they told him he could, he said to leave it, as 3ABN was the very channel he enjoyed watching! They were amazed and so was I.

God is so good. He has led all kinds of people to watch 3ABN, people we would never expect. God leads people to His message but we have to have the message out there so the Holy Spirit can lead them to it. Please consider what God wants YOU to do to help us produce Australian programs for His glory and the salvation of people around the world. Most of them have not yet heard His truth and know nothing about the great controversy, or that they need to make a choice as to whom they will worship. It is up to us, as God's professed people, to tell them. Join us in doing so through your financial support. You can donate through a once-off donation. Or join our "GO!" Evangelistic Team by sending in a monthly donation. Also, please keep praying for us.
